Multi-level roadmap planning
Scenario planning
Validation, prioritization & approval
Program management
Execution (Stage/Gate)
Order management
Release management
Rolling forecasts
Cost allocation
Board management
Document management
Extensive role & authorization concept
Multi-dimensional financial, capacity & timeline planning
Fixing & analysis of hierarchically structured KPIs

Project structures
Integration with SAP PS and DMS
Program charter & contract data (volumes)
Risk charts
Work lists including export/import to/from MS Excel
Quality gate reviews
Manufacturing engineering reviews
Milestones control
Dynamic screens & dashboards
Creation of Adobe & BW Reports
Integration of sales orders & billing plans
Generation of internal work & purchase orders
Timeline control
Budget & cost control
Results analysis
Cash management
